

I enjoy listening to XM Satellite Radio in my motorhome, and benefit greatly from its traffic and weather channels. Listening to XM Radio also makes me a safer driver because I don't need to search for local stations as I drive. I gladly pay for these services, and feel strongly that it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that is beneficial to me, and that I deserve.

Sincerely,

David E. Engler
